CERTIFICATE OF APPROVAL

Clear Ballot Group
Clear Vote Voting System (Clear Count 1.3.2 and Clear Design 1.3.1)

Clear Ballot has made upgrades to their ClearVote Voting System. Specifically they have submitted ClearCount version 1.3.2 and ClearDesign version1.3.1 along with their test lab report by EAC Certified tester Pro V&V. The test report documents that the systems meet all of the Oregon requirements and are conformant with the federal Voluntary Voting System Guidelines (VVSG), Version 1.0 (2005).   Clear Ballot has requested approval of this change for use in Oregon elections.

The Secretary of State partnered with Benton, Washington, Linn, Deschutes and Multnomah counties and Pro V&V. We have determined that the upgraded system complies with the statutory requirements of Oregon Revised Statutes 246.550 and 246.560, specifically ORS 246.550(4) and Oregon Administrative Rule 165-007-0350 in that these changes do not impair the accuracy, efficiency, or capacity of the machine or system.

Accordingly, the ClearVote Voting System consisting of ClearCount version 1.3.2 and ClearDesign version1.3.1 is certified for sale, lease or use in all elections in Oregon. The system must be used in compliance with the provisions of applicable Oregon statutes and all Secretary of State, Election Division rules and directives.

Dated this 3rd day of March 2017.

Stephen N. Trout
Director of Elections
